WORKSHOPS: All workshops are 9 am – 3:30 pm. There is no cost to attend. Substitute teacher costs will be reimbursed and lunch and morning refreshments will be provided. We will explore and learn about arts integration as a strategy for increasing student learning, whether you are new to the concept or have been integrating with other content areas for years. Participants will engage in a hands-on arts experience, generate ideas for the classroom, reflect on examples of arts integration, and learn about another professional development opportunity for teachers interested in arts integration. The workshop is open to arts teachers and teachers from all other subject areas (we highly encourage teams from the same school to attend!) Use the link below to register.

These workshops are a kick-off for an upcoming professional development opportunity in the Southwest and South Central regions, the Perpich Arts Integration Project. This 3-year initiative fosters collaborative arts integration through K-12 teacher professional development and funding to schools, and will begin in August 2016. This opportunity will be open to school teams in the southwest and south central Minnesota.
