School

The past 15 years of retirement, Math
Teacher at Normandale Community
College

A few things about Judy...*from Lisa Conzemius*

I am proud to introduce my distinguished teacher and friend Judy Stucki.

She has been a leader and a mentor to many. Judy has provided many years of service to MCTM as an organization. Judy loves teaching and loves helping people. If you have ever been lucky enough to work with her or have her as a teacher, you would instantly know it and would appreciate her caring attitude.

Judy was the winner of the Presidential Award for Excellence In Mathematics Teaching for the State of Minnesota in 2003. Judy will celebrate her 50th wedding anniversary with the love of her life Frank Stucki this May. She has a wonderful family that includes her two children Melissa and Michael and 5 grandchildren. Judy also loves to travel, play golf, and play pickleball.

Thanks, Judy, for all your years of dedication, hard work, and enthusiasm.

MCTM is proud to award you as our 2021 Honorary Member.

Judy Stucki

2021 Honorary Member

“Thank you so much for choosing me for an honorary membership. MCTM has impacted my teaching in so many ways over the years; I've gotten wonderful teaching ideas from attending conferences, reading MathBits, and networking with other districts in regard to implementing new requirements and techniques. Many of the teachers I've met through the organization have become lifelong friends. I'm grateful to all of you for maintaining such an excellent professional organization.”
