

3-D Thursdays!

"Three-Dimensional" Series for Rural K-12 Educators

● Educator Opportunities

● Networking

● NGSS Connections

First Thursday of Each Month

Upcoming: Nov. 4th at 7:00 pm Central Time

With hosts Rachael Arens, Associate Researcher at NASA/NAU PLANETS & Michael Guarraia, Albert Einstein Distinguished Educator Fellow at NASA

Do you want your students to make meaningful contributions to authentic NASA science? Join us for a workshop to learn about the variety of available NASA citizen science projects spanning all three scientific domains (Life, Physical, and Earth & Space). Projects can be conducted regardless of educators' unique geographic locations and can meet the content and age-level needs of your classrooms. This webinar is suitable for all grades K-12.

Special Guest

Sarah Kirn

NASA Citizen Science Strategist

Sarah Kirn is the Citizen Science Strategist for NASA, based out of the Gulf of Maine Research Institute (GMRI) in Portland, ME. In this role, Sarah plans and hosts an ongoing series of events for the public about NASA citizen science opportunities. Sarah has held a variety of roles within GMRI, developing and leading several programs that have touched thousands of students from all over the world. Other experiences include teaching middle school as a National Science Foundation Teaching Fellow and teaching multi-week sailing courses for the Hurricane Island Outward Bound School.
